

Turn to North American for your large cases

Large cases can be medically and financially complex. At North American, we go beyond just pricing the risk to take a holistic approach during underwriting, no matter the case size.

Tips for submitting large cases:

1. Consult with your regional vice president or use web-based illustrations to provide an initial quote for the policy.
2. Work with agents and their clients to submit applications via SimpleSubmit®— **available to use with face amounts above \$10 million!**
3. Alert your New Business and Underwriting team.
4. Provide a cover letter to help the underwriter better understand the case, submitted, if not addressed elsewhere on the application or supplemental forms. Information to include:
 - purpose of coverage
 - pertinent details regarding owner, payor, product and face amount
 - inforce coverage and any other coverage applied for or pending (i.e. personal or business coverage)
 - special circumstances to consider
5. For business cases, please provide a completed business supplemental questionnaire.

Note: third-party financial statements may be needed at any face amount based on underwriter review and on all face amounts over \$10 million.
